

**International Summer School on Regulation of Local Public Services 19th Edition**  
**/ Torino, Italy | 5-16 Sept. 2016**

## Overview

The School is designed to offer two weeks “full immersion” in user charges regulation of local public services (e.g. waste, water, public transport, district heating, sport facilities) and is mainly addressed to undergraduate students at their last year, graduate students and officials from the Public Administration (municipalities, counties, regional bodies) and regulatory agencies.

The course lasts two weeks and is articulated in three parts:

- theoretical module
- industry analysis
- case studies (with a virtual regulatory final report prepared by attendants)

For further information, please have a look to the programme

## Fees and accommodation in Turin

Low rates and free accommodation.

Registration fees for admitted attendants are as follows:

Profile	Fee	What you get	Condition
A	<b>150 Euro</b>	registration to the ISS 2016 and free accommodation	payment receipt returned by the 24th of June 2016. In case of delay, the School reserves the right to assign the place to another candidate in the reserve list.

### Applications and Deadlines

The application form will be online from the **3rd of February 2016**.

The deadline for the submission of the application form is the **5th of June 2016**.

Admitted attendants will be contacted directly by email by the **17th of June 2016**.

### Cancellation policy for admitted students

- Profile A: in case of withdrawal the fee will not be refunded

### Selection criteria applied

Curricula are evaluated on the basis of three main criteria:

- 1) relevance of applicant's studies and professional experience / current job position to the topics of the Summer School programme
- 2) balanced geographical distribution of selected participants (OECD / non-OECD members; distribution per continent; inclusion of applicants from Countries non represented in the previous editions)
- 3) balanced distribution of educational background (e.g. economics; environmental engineering; law; public administration; ...)

Moreover, in the case of curricula with similar score, also some attention is given to the selection of profiles with expertise in different sectors relevant to the domain of regulation of LPS (e.g. water cycle, waste, energy, ...).

Due to a limited number of available places, not all applicants on the ISS reserve list will be included in the class of 2016. However, those on the reserve list will benefit from a **25% off discount** for attending one of the courses in the **Executive Education Programme**. The 2016 catalogue of courses is available at <http://turinschool.eu/eep>
